Quality Assurance effort begins with the design of the product, and continues through our manufacture and shipment. We strive to meet or exceed our customers' needs and expectations by ensuring the consistent conformance of our products to their established specifications and performance standards, and by encouraging all of our employees to pursue a course of continuous improvement in the quality and productivity of the goods and services that we provide. Our quality control for assures consistency in manufacturing as below:

- IQC (Incoming Quality Control)
- IPQC (In-Process Quality Control)
- FQC (Final Quality Control)
- OQC (Outgoing Quality Control)
- 100% Functionally Tested

The QA/QC equipments and processes at SRL contribute to specialized testing services which maximize customer's satisfaction. With employment of professional quality control personnel and numerous testing equipments, our products attain to the strict standards and designated certifications worldwide. We always offer comprehensive services for product safety conformance in order to exceed customers' expectations.

Reliability Test Equipment:

- Temperature & Humidity Chamber
- High Temperature Chamber
- Low Temperature Chamber
- Cable Bending Test Machine
- Plug and Jack Life Tester
- Plug-pull Power testing device
- Cable Flex Testing Device
- Brine Sprayer Testing Device
- Aging testing Device
